

**FOR PARTNERS
FOR PARTNERS**

The entire AEROVECTRA Company would like to welcome you to our company and our philosophy!

The company was founded in 1997 in Chelyabinsk. Nowadays we have three large offices in Chelyabinsk, Tyumen and Moscow. In Chelyabinsk and Tyumen we are famous as the Region's leading provider of International Education. In August 2018 we opened the AEROVECTRA office in Ukraine, Kyiv.

Our company's mission is to offer our customers VIP services by putting emphasis on quality, individuality and confidentiality. By working on a tight personal basis with our partners and customers, we look to attain this goal for the contentment of all parties concerned.

Since 1998 Aerovectra has been a regular participant of International Educational Workshops and has been participating in working meetings with educational providers twice a year in different countries (ICEF Berlin Workshop, ARELS, English UK, ALPHA).

AEROVECTRA offers a wide range of quality education abroad: language programs, secondary / high school programmes, university placement programs, undergraduate and graduate degree programs, language + work experience programs, etc.

The company is the official representative of many Educational Organizations from Great Britain, Ireland, France, Switzerland, Spain, Malta, USA, Australia, Canada and New Zealand. Among our partners are the most prominent Educational Organizations and providers.

In our marketing and recruiting strategy, we use different methods. The main features of our promotional strategy are seminars-presentations, conducted by our staff or different schools and universities representatives; school talks, and exhibitions.

Aerovectra was a pioneer having successfully organized the First International Exhibition "Education abroad" in South Ural region in 2004. Since that time the Exhibition is hold annually. Every year representatives of language schools, boarding schools, colleges and universities visit Chelyabinsk and Tyumen in order to participate in our exhibitions. These events have already gained popularity among the citizens of Chelyabinsk and Tyumen as well as of the nearest regional towns of the named cities. There are usually about 1000 visitors who are happy to take an opportunity to receive the information from the first hand.

A video from one of our previous fairs:

For the last years AEROVECTRA has sent more than 1 000 students to study abroad. Today we are proud that our students study in a wide range of prestigious universities and colleges around the world.

Staff: AEROVECTRA has the highly qualified managing staff that has gained a lot of experience working with the leading Educational

Institutions and providers. Among its staff are also former University lecturers who are well acquainted with foreign educational system. During one year the company was receiving consulting assistance from Dr. Odo Turowski (Germany), former director of the Enterprise Support Centre, Chelyabinsk, operated by a well-known management consultant firm AT Kearney (USA). The professionals have extensive knowledge of our different programmes and directions and constantly improve their qualification levels. They take participate in annual workshops and theme exhibitions.

Locations: Chelyabinsk

is one of the main cities of the South Ural Region with the population of about 1,5 million people. The South Ural Region itself is one of the largest and richest industrial regions of Russia. It is well-known for talented, intelligent, creative and highly motivated students who strive for new knowledge and getting great education abroad.
