University of Toronto (UFT) - один из самых известных и крупных университетов Канады. Он по праву занимает свое место в двадцатке самых рейтинговых вузов мира. UFT идет в одном ряду с Оксфордом, Кембриджем, Гарвардом и Стэнфордом.

Университет Торонто состоит из 12 колледжей, отличающихся друг от друга специализацией, историей и традициями. Студенческий городок университета занимает 10 кварталов в центре Торонто к востоку от улицы Spadina, до здания правительства провинции Онтарио. В университете имеется десятиэтажная библиотека. Помимо центрального, университет имеет ещё несколько филиалов со студенческими городками, расположенными на различных окраинах Торонто.

Многие корпуса этого учебного заведения сохранились со времен основания и стали памятниками архитектуры. Поэтому университетский городок со всеми его достопримечательностями часто посещают туристы,

а кинокомпании часто используют его как площадку для снятия фильмов. Десять выпускников университета стали лауреатами Нобелевской премии в сфере искусства, медицины и естественных наук.

В наше время в университете учатся около 89 000 студентов, из которых около 17 500 - иностранцы. 14 факультетов обучают на бакалавров и магистров, а докторских программ в университете - 85.
