Об университете:

The University of South Florida — один из крупнейших государственных университетов США. Он был основан в 1956 году. Основной кампус расположен в городе Тампа. Автономные отделения находятся в Сент-Питерсберге, а также в Сарасоте и Лейкленде. Университет признан одиним из лучших исследовательских высших учебных

заведений страны. Это один из немногих ВУЗов Америки, где занимаются исследованиями в области лечения заболеваний головного мозга, сахарного диабета, болезни Альцгеймера. Студенты профильных факультетов имеют возможность приступить к исследовательским работам уже на первом году обучения. Большинство проводимых изысканий активно поддерживаются правительством и частными инвесторами. Университет славится своим сильным преподавательским составом и высокими образовательными стандартами. Помимо сильной медицинской кафедры USF также считается лидером по подготовке специалистов технических дисциплин.

На кампусе университета в Тампе успешно функционирует центр INTO, предлагающий подготовительные программы для поступления на бакалавриат, магистратуру, а также курсы английского языка.

Ежегодно в университете обучается более 50000 студентов. Здесь проводится активная студенческая деятельность, функционирует около 500 студенческих организаций, выпускаются студенческие газеты и журналы. На территории кампуса открыт Музей современного искусства. Для любителей активного образа жизни работает современный спортивный центр с многочисленными площадками, бассейнами, стадионом и теннисными кортами.

Тампа признан наиболее образованным городом страны. Культурная жизнь представлена несколькими музеями, картинными галереями, театрами и парками. Здесь имеется зоопарк океанариум, а улицы пестрят многочисленными забегаловками кафе и ресторанами.
